

ACUTE EXCLUSION LIST

Effective: 1 January 2017

NOTE:

Products contained on the Acute Exclusion List will not be reimbursed from the Acute Medicines Benefit for one of the following reasons:

- Specific clinical criteria are required to be met before funding will be approved from the Chronic Medicines Benefit. Applications for these medicines should be submitted with the specified clinical information (as indicated) to the Medicine Risk Management department for pre-authorisation.
- Based on a review of associated clinical information, the cost of these products is too high compared with the associated benefit.
- Based on a review of associated clinical information, these products are considered to be inappropriate for routine use in managing a specific condition.
- Motivation* indicates that the product may be considered for reimbursement from the Chronic Medicine Benefit upon motivation, if the requested diagnosis is covered within the Scheme's schedule of benefits.

Product name	Active ingredient	Strength	Dosage form	Chronic authorisation requirement
Abecard 8mg	Candesartan	8mg	TAB	Motivation required
Abecard 16mg	Candesartan	16mg	TAB	Motivation required
